Yes, occupational health and safety management system has been implemented by the entity. It covers the entire operations covering all construction project sites including offices. In line with NCC Ltd. Vision, Philosophy, and QEHS Policy, management systems have been implemented in accordance with the International Standards ISO 45001:2018 (Occupational Health and Safety Management System Standard). HSE plan been prepared for every operation based on the scope, associated risks and mitigation measures covering occupational health, safety & environment. And this Management plan includes the mandatory and regulatory requirements for systematic management and execution within the organization in a safe manner.

- b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity.

The company has in place systematic risk management process to identify and control all the hazards in construction project sites, and offices. The Company's risk management process is applied through five steps (Identification, Assessment, Mitigation, Monitoring and Reporting) and is the key driver for identifying and controlling the risk of HSE in business. All relevant stakeholders including construction Engineers, Worker's Representatives, Design & Planning Engineers and HSE team members are involved in risk assessments and the risk management process, Risk Assessment & Safe Work method statement are developed and approved prior to starting any work activity. All identified risk and risk mitigation plans are required to be documented, approved and communicated to all relevant parties involved in the activity. Apart from this risk management process the company has site inspections, Site and Corporate HSE walks and HSE audits to identify the work related hazards to assess the risks for routine and non-routine for further review.

- c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks.

Yes, the Company has processes for workers to report work related hazards verbally, discussions in daily Tool Box Talks Meetings or in written based on the risk levels. And all site execution team including workers have the right to remove themselves from such hazards to safe guard themselves and others. If any such hazards beyond their limits, it will be reported for further action to concern authority.

	Workers	12	16
No. of fatalities	Employees	0	0
	Workers	5	5
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	0	0

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

As a part of the HSE management system, a project specific HSE plan is prepared at the inception of every new project that determines the broad parameters of HSE Management. This HSE plan Identifies the hazardous operations and the risk arising from such hazards which are within the scope of the work. It even specifies the required integrated preventive measures (Controls) to mitigate the same.

The Management provides strong demonstrable visible leadership and commitment towards HSE through personal examples and actions. This is the first principle of NCC L.I.F.E. (Live Injury Free Each Day) leadership commitment. Management has participated in HSE meetings, conducted site Inspections and HSE Audits, to encourage and develop a positive attitude towards HSE within NCC Projects and operations. Management ensured that sufficient HSE resources were available and allocated responsibilities for implementing the NCC LIFE framework. Roles & Responsibilities, targets & objectives, goals, training needs & required behaviours had been clearly defined, agreed & communicated throughout the entire organization and structure.

To support this further, there is a systematic risk management process in place to identify and control all the hazards in projects / units which requires verification of conformity. The HSE management system has various procedures and norms. Therefore, a process has been established for carrying out Internal HSE Audits. This process mandates to organize internal audits for all active projects and it is verified by Head Office Audit Team at least once in six months. Certain Projects were selected for frequent auditing, depending on their status, importance, and risk profile. This was in addition to any external audits carried out by accredited auditors.

Health and safety practices	100%
Working Conditions	

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health and safety practices and working conditions.

Every project of the Company's Safety Committee undertakes a review of all accidents and incidents, and formulate procedures based on risk analysis of data gathered through respective Project sites. This data is used for predictive analysis, measurement of incidents and unsafe behaviors. This enables identification of the key areas of risk which in turn guides the projects to proactively manage and focus resources to prevent any accidents or incidents. Such analysis is shared throughout the group to support NCC Mission Safe Working Environment ZERO accident objective.

In view of this collective approach, efforts have been made in understanding the Company's high- risk profile holistically as well as in general. HSE risk management culture has been inculcated across the Company. Various steps have been taken including:

- Implementation of HSE Surveillance Rating
- Developed HSE Training Modules on high-risk activities.

- Developed standardized template of HSE Lessons Learnt and these alerts are shared in the centralized knowledge sharing platform which can be accessed by all employees.
- Enrolled Subject Matter Experts (SMEs) into the HSE Management Community of central knowledge sharing module.
- Implementation of senior management audits based on standard checklist developed by the HSE Council.

The outcome of the efforts has been to capture the high-risk hazardous activities ubiquitous in various NCC's Business verticals. This helps to devise an action plan to enhance the competency among stakeholders in managing such activities with higher degree of awareness and suitable training from competent external agencies as well as subject matter experts. Each employee of the organisation strives to achieve HSE excellence in their respective functions and align their actions and business decisions.
